About Camp Craig Allen:

We are raising money to begin construction to build a facility that will produce activities and programs around the most complex wheelchair and specifically for a child or adult which is confined in one. We are a non-profit organization and 100% of our funds raised go directly into construction which we will be built here, in North Texas. This complete wheelchair barrier-free environment will provide and encourage personal growth, abilities, talents, and broaden the experiences of those that are physically disabled, with no age limits.

Camp Craig Allen will be built for physical disabled children and adults, and their families. Please visit our website for more information www.campcraigallen.org

Thanks for your support!
